

Millions of Hunters, Anglers call on House to PASS the Omnibus Public Land Management Act of 2009

TO THE U.S. HOUSE OF REPRESENTATIVES:

On behalf of America's hunters and anglers, we the undersigned call on you to PASS the **Omnibus Public Land Management Act of 2009**.

Fish and wildlife need wild country to thrive, and hunters and anglers need wild country to provide the adventure and challenge that are the foundation of our sporting heritage. This legislation does more to preserve the wild legacy of our public land than any measure in the last 25 years. In the Omnibus Public Land Management Act of 2009, the 111th Congress has an historic opportunity to conserve our public land legacy and guarantee all Americans access and sporting opportunities for generations to come.

We urge you to **stand with our nation's sportsmen and women** by supporting this vital legislation.

Sincerely,

Association of Fish and Wildlife Agencies
Backcountry Hunters and Anglers
